WEB DEVELOPMENT PROJECTS

CHATTERBOX

A social networking and chat application that allows users to connect, discuss, and listen to music with friends.
+ Built using AngularJS, Express, Node.js, MongoDB/Mongoose, Bootstrap and LastFm API.
+ Designed and implemented the UI display and functionality for profile management, message board, social network system, browse and search functionalities, back-end data modeling, and external API interaction.

WHATSCOOKING

A recipe planner that enables users to effectively plan their meals and easily prepare a shopping list of ingredients for the week.
+ Created with Java 8 using Spring Boot and Spring Security Framework, MySQL, Bootstrap and Yummly API.
+ Implemented search and browsing features, external API interaction, shopping list feature and user account management functionalities.

E-BOOK TRADING CLUB

A full stack Django application for uploading, exchanging ebooks (pdf files) in a market style exchange.
+ Built using Python, Django, and Bootstrap.
+ Designed and implemented the UI display and functionalities of the pdf file trading feature.

PROFESSIONAL EXPERIENCE

FULL STACK DEVELOPER at Coding Dojo
Burbank, CA ▪ Jun 2017 to Oct 2017
+ **Designed and implemented features for web applications** utilizing popular web development frameworks such as AngularJS, Java Spring, and Django.
+ **Collaborated with other developers in designing and writing high quality code** to complete web applications within appointed deadlines.

NURSE at Mental Health, Home Health, United States Army
Los Angeles, CA ▪ Aug 2008 to Jun 2017
+ **Partnered with Mental Health, Police and Military professionals** to increase effectiveness of healthcare delivery to patients with critical medical needs.
+ **Utilized efficient problem-solving and conflict resolution skills** to solve mental health crisis cases, effectively reducing number of crisis cases per month by 50%.

EMERGENCY MEDICAL TECH at United States Army
Ft. Stewart, GA ▪ Jan 2009 to Oct 2011
+ **Employed critical observation skills** through assessment of injuries and proper administration of emergency medical care.
+ **Utilized adaptive, critical-thinking skills** for extrication of trapped individuals and safe transport of injured and sick persons to medical facilities.
